DEPARTMENT OF COMMERCE

NIST Scientific and Technical Research and Services (STRS)

Funding must be for activities consistent with and supportive of NIST's mission and within its authorities, such as STEM education activities, scientific research, or other activities that support American manufacturing and industry. The median award in this account for FY 22 was \$1,250,000. Note the Committee may consider similar or higher project amounts for FY 23. Any caps will be determined after reviewing the full universe of requests, and while there are no guarantees, projects of a modest size are more likely to receive full funding.

This account does not fund vehicles or building construction or renovation.

Questions for NIST STRS projects

The Commerce, Justice, Science, And Related Agencies Subcommittee will only consider funding projects that have been entered into the online database. Members submitting NIST STRS community project requests are required to submit answers to the following additional questions within the online database. Failure to complete all required questions will result in an incomplete project request. Incomplete project requests will not be considered for community project funds.

- Please describe, with as much specificity as possible, the overall objectives of the proposed project and how the requested funds would be spent to achieve those goals.
- If a non-profit, is the recipient entity a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such code?

- For any science research project request, please provide the name of the individual who is anticipated to be the Principal Investigator for the research project, as well as a link to such person's curriculum vitae, and a list of this person's peer-reviewed publications related to the topic of the requested research project.

NIST Construction of Research Facilities—Extramural Construction

This account funds the construction and renovation of research facilities, provided that such facilities will be used in a manner that is aligned with and supportive of the mission of NIST. The median award in this account was \$10 million in FY 22, but this account was not open to community project funding in the House in FY 22. Note the Committee may consider lower project amounts for FY 23, and any caps will be determined after reviewing the full universe of requests. Given the expectation of limited resources and the large cost of research facilities, the Committee may not be able to fully fund all requests. While there are no guarantees, preference will be given to more modest requests.

Questions for NIST Construction project requests

The Commerce, Justice, Science, And Related Agencies Subcommittee will only consider funding projects that have been entered into the online database. Members submitting NIST Construction community project requests are required to submit answers to the following additional questions within the online database. National Oceanic and Atmospheric Administration (NOAA), Operations, Research, and Facilities

Community project funding for NOAA will only be considered within the Operations, Research, and Facilities account. This account does not fund construction projects, and as such, any such requests will not be considered. Requests for funding will be considered for research, demonstration, or education projects performed by external partners or for prioritizing NOAA internal funds for geographically specific projects. Any such project must be aligned with NOAA's mission and within their existing authorities. The median award in this account for FY 22 was \$750,000. Note the Committee may consider similar or higher project amounts for FY 23. Any caps will be determined after reviewing the full universe of requests, and while there are no guarantees, projects of a modest size are more likely to receive full funding. The subcommittee will not entertain requests for community project funding for the Office of Marine and Aviation Operations. Coastal Zone Management funds are distributed to states on a formula basis and will not be considered for community project funding. Historically, the Committee has not funded vehicles or building construction or renovation as part of community project funding under this account.

Community Oriented Policing Services (COPS) – Technology and Equipment

Funding will be provided for COPS Technology and Equipment (COPS Tech) community project grants for State, local, and tribal law enforcement to develop and acquire effective technologies and interoperable communications that assist in investigating, responding to, and preventing crime, provided that such equipment meets the applicable requirements of the National Institute of Standards and Technology (NIST) Office of Law Enforcement Standards (OLEs).
